- **Programming language**: JavaScript/TypeScript
- **Library:** Flutter, React Native, NodeJS, NestJS, NextJS, Tailwind, Material UI, Ant Design, Bootstrap
- **Tools & Database:** SQL Server, MongoDB, Firebase, Redis, Unit Test

EDUCATION

FPT UNIVERSITY HCMC　　　　　　　　　　　　　　　　　2019 - 2023

Software Engineering

- Semester: Success
- GPA: 7.2
- Learn the basics of programming languages like Java, C/C++, JavaScript. Master the knowledge of web development, including HTML, CSS, JavaScript, frameworks like React as well as back-end technologies like Node.js.Learn about the software development process, system design models, and requirements analysis techniques to build quality software applications.

TOUR RECOMMENDATION / FPT University　　　　　　　Sep 2023　- Dec 2023

Front-end developer

- **Description:** Tour Recommendation App is an online application designed to facilitate various aspects of tour management. It not only streamlines work processes and enhances service quality but also fosters customer interaction. Furthermore, the app efficiently stores booking information and enables online payment, ensuring a seamless experience for users throughout their journey.
- **Github**:
  - + https://github.com/thinhdao16/zest-trip-provider
  - + https://github.com/thinhdao16/zest-trip-manager
- **Team size**: 4
- **Technologies**:
  - + Front-end: Ant Design, React JS, HTML, CSS, Flutter
  - + Backend: NestJS, SQL Server ,Firebase, Redis

WORK EXPERIENCE

FPT Software - OJT　　　　　　　　　　　　　　　　　Jun 2022　- Dec 2022

Learned and developed a project with ReactJS, assigned by a mentor.

PROJECT

MEMBER MANAGEMENT / FPT Software   Sep 2022 - Dec 2022

Front-end developer

- **Description:** The Member Management System is an online application tailored to streamline all
  aspects of membership management. It not only optimizes administrative processes and
  enhances service quality but also fosters seamless interaction with members. Additionally,
  the system efficiently stores member information and facilitates online transactions,
  ensuring a smooth and convenient experience for both members and administrators alike.
- **Gitlab:** https://gitlab.com/thinhdao16/demo-asm
- **Team size:** 2
- **Technologies:**
  - Front-end: Tailwind, React JS, HTML, CSS
  - Backend: Nodejs, MongoDB, Firebase

HOSTEL MANAGEMENT / FPT University   Jun 2022 - Sep 2022

Front-end developer

- **Description:** Hostel Management System is an online application that will capture all hostel-related
  management activities. It not only helps to improve work processes, improve service
  quality, but also serves to interact with customers. Besides, the hotel management
  software can store customer's booking information and at the same time can pay online.
- **Github:**https://github.com/thinhdao16/SWP-hostel-management
- **Team size:** 5
- **Technologies:**
  - Front-end: Bootstrap, React JS, HTML, CSS
  - Backend: Spring Boot, Java
